

MYO ZIN KYAW

FULLSTACK WEB DEVELOPER

My name is Myo Zin Kyaw. I started learning frontend & backend developments from 2021 Jun. Then, I got a job experience at local company working as a API Developer using PHP/Laravel most. But I also experience CSS library in Tailwind Css, Javascript with vue.js, its framework (Nuxt.js), Alpine.js and Livewire aslo. I'm lovely to use with TALL stack technology like FilamentPHP to develop Admin Panel in a certain time and also have a knowledge that how to handle generating APIs, ORM, MVC design pattern using Laravel Framework. And currently I'm learning Dart programming language and its framework (Flutter). If I have also interested to learn node.js, react.js, and and the flutter backend (serverpod).
